Average Scaled Scores:

All test results have been converted to a common scale. The scaled score gives an indication of how children have achieved against the nationally expected standard. A score of 100 represents the expected standard. Higher scores indicate higher achievement, while scores below 100 indicate that children have not yet met the expected standard for their age. A scaled score of 110 or more is the threshold for a pupil's performance to be viewed as being to a higher standard than expected.
